

Quality products for industry & commerce
Best value, excellent service, ethical production

Personalised leisure and work wear

Pluss can supply and embroider, transfer or screen-print a wide range of clothing from polo shirts to high visibility work wear.

Radiator covers

Surveys, installation or supply only, our radiator covers help residential homes and other premises to meet the Health & Safety Executive's requirement to protect against potential injury.

Textiles

Our range includes high visibility jackets and uniforms for the NHS and solar and mains parking meter covers for local authorities in the UK and USA. We welcome contracts for sewing and upholstery work.

For more information on any of the services described in this leaflet please contact us:

Total Communication resources

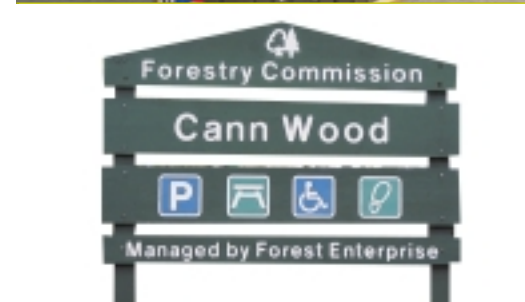

Pluss Total Communication resource packs aid health and social services professionals to communicate with people with learning disabilities. We welcome commissions to produce packs to meet your specific requirements.

Wooden furniture

We have a range of equipment for wood machining, enhanced by CNC machinery technology. Products include bespoke office and school furniture, sub-assemblies for beds, crates and pallets and dovetailed drawers.

Introduction

Pluss provides disabled people in the south west of England with jobs and training. As well as working with employers to place disabled people in open employment, we run a number of industrial units where we employ and train people with disabilities.

Quality

Pluss produces a wide range of products for a variety of markets in these units. All our products are made to a high specification: we take quality seriously and have gained BS EN 9001.2000.

Service

Our clients include local and national organisations. They continue to use Pluss because we offer them an excellent service.

As well as having the facilities for large contracts, we are particularly well suited

to produce small runs and bespoke products at extremely reasonable prices.

Ethics

We believe that disabled people should have access to the dignity, independence and self-esteem that comes through work. By ordering from Pluss you are contributing to that goal.

New projects

In addition to the product range listed below we are happy to undertake new projects. Please contact us to discuss your needs.

Our products include

Animal bedding

We manufacture the *safeTbed* brand of animal bedding using recycled cardboard which is used by Olympic eventer Mary King.

Braille and tactile signs

We can survey your premises, manufacture and install signs.

Contract packing

Pluss packaging machinery is capable

of bagging in excess of 14,000 units a day. Our staff are keen to do your sorting and packing, whatever your requirements.

Desiccant

Pluss is a leading producer of desiccant and won a prestigious BT Suppliers Award for Excellence in 1999. Our desiccant is environmentally friendly and we can pack it in the size of your choice, overprinted as you wish.

Digital printing, banners and engraving

We have over 15 years experience in the design and manufacture of signs for industry and individuals, ranging from quality timber information signs to cost effective temporary signage for one off events. Products are made to individual specification.

Disability products

Pluss upholstery is one of the largest manufacturers of wheelchair canvases, cushions and accessories in the country, supplying the NHS and others. We also produce webbing restraint belts and hoist slings.

'BT and Pluss have worked together for over 20 years. Pluss's high standard of performance in terms of product quality, delivering on time, flexibility and communication has contributed to the BT Tools & Consumables team consistently delivering high levels of service to its customers.'

Alan Newman, senior supply chain manager, BT

Our woodworking factory produces a range of desk raisers, writing boards and can design and develop products to customers' individual requirements.

Leather work

We produce belts, briefcases, chair upholstery, handbags and accessories and can make products to order.

Light industrial work

We have the capacity for a wide range of general mechanical and electrical light assembly work and wire processing operations. This service is as flexible as your product requires. We welcome challenging and interesting projects for our workforce.
